Gujarat Forensic Sciences University

Gujarat Forensic Sciences University is an unique and first of its kind in the world for conducting Post Graduate Programmes In the field of Forensic and Investigative Science and Technology. The Gujarat Forensic Sciences University (NAAC Accredited 'A' Grade) is currently offering various post graduate and Doctoral Programmes through its four institutes:

- Institute of Forensic Science
- Institute of Behavioural Science
- Institute of Research and Development
- Institute of Management and Training

Institute of Management and Training

Institute of Management and Training is one of the four constituent institutes of Gujarat Forensic Sciences University. Within a short span of a decade, the Gujarat Forensic Sciences University has become a leading hub and think tank of higher learning. The GFSU offers unique and micro specialized post-graduate, doctoral and post-doctoral research programmes in forensic and allied sciences.

Institute of Management and Training (IMT) is established with a solitary aim to create professionals and experts in the field of management, forensic accounting, healthcare management, homeland security, cyber security management, etc. The Institute of Management and Training is engaged in conducting academic programmes and imparting need based professional training to the chartered accountants, bankers and other officials working in the field of justice delivery system including police, judiciary, forensic scientists and other government officers from India as well as abroad. The Institute offers four Masters' Courses:

- MBA in Forensic Accounting
- MBA in Hospital and Health Care Management
- MBA in Homeland Security
- MBA in Cyber Security Management

MBA in Forensic Accounting

The MBA in Forensic Accounting is the only of its kind MBA program which is conducted only at GFSU in India. The MBA in Forensic Accounting Program trains Forensic accountants to look beyond the numbers and deal with the business realities of situations. Analysis, interpretation, summarization and the presentation of complex financial and business related issues are prominent features of the profession. The MBA in Forensic Accounting student becomes familiar with legal concepts and procedures.

MBA in Health Care and Hospital Management

MBA in Health Care and Hospital Management program offered by Institute of Management and Training at GFSU a two years full-time program aims to develop a cadre of professional managers for the rapidly growing health care industry who can play an effective managerial role and provide leadership in public/private healthcare institutions. For achieving its intended objective the program curriculum is structured on a multi-disciplinary perspective including general management and health care management theories and practices.

MBA in Homeland Security

Two-year full-time Master of Business Administration degree in Homeland Security offered by Institute of Management and Training at GFSU has both theory as well as a practical approach. Apart from classroom teaching for more than 18 subjects related to Management and Homeland Security Students are required to complete six months internship in the organisation and study the practical aspects of management functions and homeland security.
